New Student Admissions Guide

**International Student
Special Admission**

Global Innovative Talent University
Global No.1

President's Welcome

“ **Leading global education innovation,
building a bridge for talent
who will make their mark on the world stage** ”

For more than 50 years, Myongji College has grown on the Christian spirit of Love, Truth, and Service to become Korea's largest comprehensive college, firmly established as a leading junior college in Korea. In this era of rapid change brought by the Fourth Industrial Revolution, we have made 'trust, communication, and collaboration' our core values, building an innovative educational system through our mid- to long-term development plan, GROWTH 2030. On this foundation, we are working to cultivate creative, convergence-minded talent and practical professionals suited to the needs of tomorrow's society.

- **Cultivating Global Talent That Grows on the World Stage**

As a university certified for its capacity for international education, we are building an educational environment that meets global standards, and we are continuously strengthening our capacity to recruit and support international students. Through diverse global programs – language training, exchange programs, and overseas field placements – we actively support students in growing on the world stage. We have also been designated by the Ministry of Justice as a 'University for Training Foreign Care Workers' and operate a specialized curriculum accordingly, cultivating global talent who grow together with the community through professional technical education and links to employment in Korea.

- **A New 50 Years Built on Cooperation and Christian Spirit**

Building on close cooperation with industry and the community, we are strengthening field-centered education and, through innovation centered on an industry-academia-community network, working to create a new model for the university's development over the next 50 years. Recalling the words of those before us – that going together builds the road, and going together lets us go further – we aim to move forward as a leading university that embodies the Christian values of Deuteronomy 8:6: to keep the commandments of the Lord, walk in His ways, and revere Him.

- **A Leap Toward a University of Trust and Pride**

Going forward, Myongji College will continue to leap forward as a leading university of educational innovation that co-creates global value through change and innovation – a university trusted by government, industry, and the community, and one that gives its members pride and hope for the future.

We will stand together with you as you begin a new challenge in 2027.

Thank you.

② Guide to Dedicated Departments for International Students

▪ Department of Elderly Care and Welfare

The Department of Elderly Care and Welfare trains professional care workers who warmly look after patients and seniors with mobility difficulties and support them in daily living. Students learn the essential knowledge and hands-on skills of caregiving in a clear, systematic way, and upon graduation can earn the national Care Worker certificate under the Ministry of Health and Welfare, opening the way to stable employment in Korea and an E-7 visa. This enables graduates to work as qualified care professionals at elder-care facilities (nursing homes and group homes for the elderly).

* A care worker is not a nurse or a nursing assistant.
